

Topology

⌘ Pronounced To - Polo - G-Y

⌘ It is a prepositional noun, meaning you want to send the player, GY (that means George Yert), into play in the Polo match.

⌘ Usage

“Off you go, *To Polo, GY !*”

"O" perator theory

⌘ Pronounced "O" - perator theory.

⌘ "perator" is a common short form for "percolator"

⌘ "O" perator theory is the theory regarding the use of an "O" ring in the brewing of coffee in a percolator.

Banach space

- ⌘ Banach is an ethnic group in Romania.
- ⌘ Banach space is that space directly over and around each Banach. When a Banach moves, the space moves with them.
- ⌘ Banach space insulates each Banach from the difficult world around him. Scientists are very interested in this phenomenon.

FRACTALS

- ⌘ a little known battle cry from the French revolution.
- ⌘ French Revolutionaries - Attack Capitation (a form of tax), Tailles (a form of tax), Antoinette (the queen), Lovers, and Sex.

FRACTALS - continued

⌘ As this was a rather long battle cry, it was shortened to FRACTALS. Of course it also wasn't a very *popular* battle cry, since although most peasants were against various taxes and the queen, they were rather fond of lovers and sex. They were after all, good Frenchmen. They did try to shorten it to FRACTA but that just didn't sound as good as FRACTALS!
