

The  
MIAMI VALLEY FOLK DANCERS

---

Among many other club members who have freely given of their time and efforts, voluntarily teaching and doing other helpful, generous things, Leslie's work initiating and producing the "MVFD Syllabus Collection" stands out:

•  
Its four years' of labor demanded Leslie's strong and expert leadership to acquire and to coordinate the help of 20 other club members.

•  
Its completion preserves all of the club's 77 workshop syllabi and written directions for 1,100 dances, much of which might otherwise have been lost.

•  
Its easily searchable format, on a single compact disk, makes all of the information readily available to any club member.

•  
Far beyond the realm of club use, the compact disk and its contents are available to the family of international folk dancers world-wide.

•  
The unique content and availability of this compact disk provides the MIAMI VALLEY FOLK DANCERS Club with an impressive national and international reputation, which would not be attainable any other way.
